

## Submit with confidence. End to end solution for CDP.

**We support organisations across the full CDP reporting cycle, reducing internal burden, while improving confidence in the final outcome.**

CEN offers full life-cycle support for CDP, taking full control of the submission process or working collaboratively with in-house sustainability teams.

At the core of our approach is a proprietary CDP scoring tool, used to assess draft responses prior to submission, identify material gaps and provide question-specific feedback to support targeted improvements.

## Our CDP solutions.

“The CEN proprietary scoring tool generated accurate estimated scores, question-specific feedback, and recommendations to enhance disclosures. Communication between our in-house sustainability team and CEN was highly collaborative and efficient with timely responses throughout the process.

We have a much better understanding of the CDP scoring thanks to CEN's structured approach and actionable recommendations, improving both the efficiency and effectiveness in our CDP disclosure.”

**Coats Group plc**

“CEN's expert management of the CDP reporting process delivered exceptional value through their structured approach, insightful guidance, and commitment to quality outcomes. Their partnership has transformed our sustainability reporting experience into a productive submission with clear recommendations to follow up, setting a new standard for efficiency in our disclosure process.”
